

Task 2

```
#include <stdio.h>
```

```
void ToggleBit(unsigned char *reg, int bit) {  
    *reg ^= (1 << bit);  
}
```

```
int main() {  
    unsigned char myRegister = 0b00001111;  
    int bitToToggle = 3;  
  
    ToggleBit(&myRegister, bitToToggle);  
  
    return 0;  
}
```
